

CENTER FOR MINERAL RESOURCES, GEOINFORMATION AND TRAINING

Welcoming message

The center was established in 2011 by Professor Ukhnaa. The main purpose is to carry out geological research and mineral exploration at a high level of scientific theory, introducing new advanced methods and technologies, improving the benefits of geological exploration research, and meeting modern international standard requirements.

Appreciate to the many customer organizations, geologists, explorers, researchers, and students who cooperate and support to create high-quality prospecting engineers who encounter international standard.

Work

- Organize professional training course for exploration engineers.
- To support of competent and accredited engineers to manage and implement production and research work using modern exploration methods.

Publication

- Methodical recommendation applied for classification of mineral resources and main 30 type deposits reserves of MONGOLIA

Methodical recommendation-I (2019):

U-Th, Coal, Au, Fe, Placer deposit, Fluorite, Cu, Petroleum

Methodical recommendation-II (2021):

Zn-Pb, Mo, Ag, W, Sn

Methodical recommendation-III (2021):

Al, Graphite, Salt, Li-Cs, Carbonite rock, Sand-gravel.

Methodical recommendation- IV (2022):

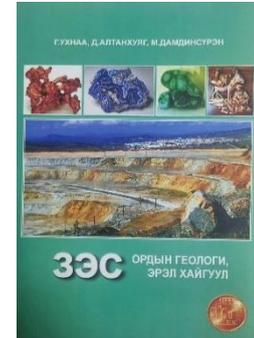

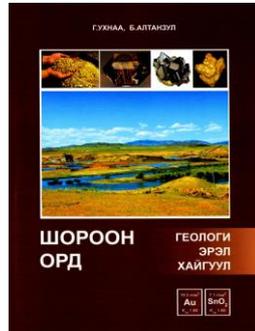

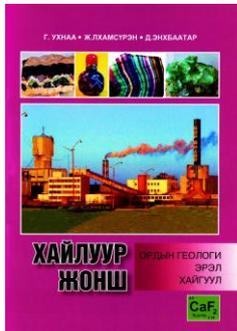

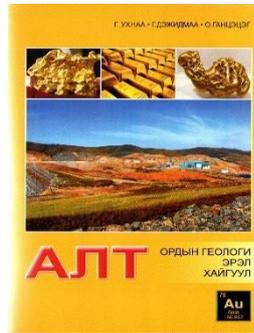

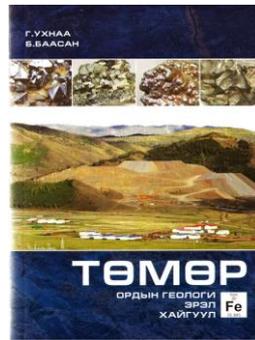

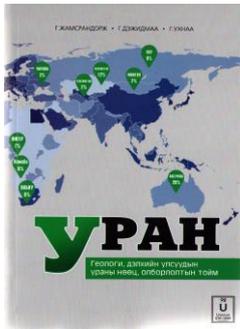

Phosphate, Mn, Be, Ni-Co, Cr

Methodical recommendation- V (2023)

Building rock, Silica rock, Clay, Gypsum, Gym rock.

- G.Ukhnaa, D.Altankhuyag, M.Damdinsuren., 2023, Cu ore deposit, exploration and prospecting. In Mongolian.
- G.Ukhnaa, J.Erdenebayar., 2021, Ag ore deposit, exploration and prospecting. In Mongolian.
- G.Ukhnaa, B.Altanzul, 2020, Placer deposit ore deposit, exploration and prospecting. In Mongolian.
- G.Ukhnaa, J.Lkhamsuren, D.Enkhbaatar., 2019, Fluorite ore deposit, exploration and prospecting. In Mongolian.
- G.Ukhnaa, B.Batkishig., 2018, Pb-Zn, ore deposit, exploration and prospecting. In Mongolian.
- G.Ukhnaa, G.Dejidmaa, O.Gantsetseg., 2017, Au, ore deposit, exploration and prospecting. In Mongolian.
- G.Ukhnaa, B.Baasan., 2016, Fe ore deposit, exploration and prospecting. In Mongolian.
- G.Ukhnaa, G.Jamsrandorj, G.Dejidmaa., 2015, U ore deposit, exploration and prospecting. In Mongolian.

- Short training courses are being organized.
- Participating in thematic research and prospecting of mineral deposits, providing methodological advice, making expert opinions, and developing work projects and results reports.
